

Fred and Nancy are New Zealanders based overseas and serving people living and working cross culturally. They are trained and experienced in care and support for cross-cultural workers, their marriages and families and also crisis care for people impacted by critical incidents. They love serving people from many countries and backgrounds, involved in a variety of work across many hard and challenging environments.

Prayer points:

Praise God Fred received his residency for three years which was a huge miracle. Generally they give spouses one year at a time, and we are yet to hear anything about Nancy's renewal. Please pray we will hear soon and get to negotiate a three year one.

While holding this joy, we have also had to hold the grief of not being able to travel. We had to cancel a ME trip due to Fred not having his new card. We had two other trips planned, but have had to cancel those too while we wait for Nancy's visa and now attend to a more urgent need we have been asked to be involved in. Please pray for wisdom as we prepare for that. For two of the country visits we had to cancel, we have offered them slots to sign up to connect on Zoom - so the next two weeks could be very busy.
